Job Shadowing for teachers and school staff in Croatia

We **organize Job shadowing activities** in the beautiful Mediterranean city of **Split** where our extensive network of schools is ready to welcome you and share some of their most efficient practices.

Our second location is the capital of Croatia, **Zagreb**. This central European dynamic and lively city has to showcase some of the best examples of Croatian education system.

Most importantly, you get to visit a different school every day gaining valuable experience and insight into their work. During our job shadowing course, you are going to get a chance to talk to school principals, teachers, psychologists, and see how they use their tools and techniques in practice. Exchange ideas and learn how they deal with challenges such as inclusion, diverse students' needs, absenteeism, assessment, digital tools and outdoor learning.

Our extensive network of schools includes kindergartens, primary and secondary schools as well as several faculties and organisations specializing in adult education

What is job shadowing within Erasmus+ programme?

Job shadowing is a type of activity that is supported by Erasmus+ funds. It can last from 2-60 days. During this time the participants of this mobility spend a period of time at a hosting organisation in another country learning about their education system, examples of best practice, observing lessons, discovering new tools and methodologies. They get to interact with their peers and learn about their daily work. Croatians are 11th best non-native English speakers in the world, Zagreb is 3rd best city according to 2023 EF global test results.

Croatian education system took a huge turn some years ago when it went through "School for life" curricular reform. Our students win prizes at world competitions and we're proud to say that we have their teachers in our team! Every year Croatian Ministry of Education awards best 500 teachers and our teacher trainers are frequently among them. So come and learn from the best!

This is also a perfect opportunity to learn about the culture of another country, get to know the locals, traditions and explore the way of life. Platform21 allows you to get the best of what a job shadowing staff mobility in another country can offer.

We'll help you find the best host partner for your Erasmus+ job shadowing

We know how challenging it may be to find perfect host partners for your Erasmus+ project. Many teachers get overwhelmed when they realize the amount of work necessary to be done when organizing a job shadowing activity as well as when hosting other teachers in your own school.

This is why we organize the whole process for you. We:

- find the ideal host partner schools (from our extensive network both in Split and Zagreb),
- arrange your accommodation at the best possible price,
- include cultural activities into our package,
- organize your transport,
- issue Certificate of attendance, Learning Agreement, Europass document.

Quality standards are at the top of our priorities and we refuse to provide anything less than the best experience.

The benefits of including job shadowing in your Erasmus+ project

The benefits are numerous. Not only will this activity support internationalisation and institutional development of your school but it will also:

- promote values of inclusion and diversity
- support development of professional networks
- help teachers, school leaders and school staff develop professionally
- support the transfer of best practices in teaching
- contribute to digital literacy
- help fostering new ideas and collaboration among institutions across Europe

Daily rates and budget for international staff mobility

When it comes to the budget received by each participant it is best to consult the latest Erasmus+ Programme Guide and be sure the version you are checking is the last one published. The programme guide gets updated regularly, so be careful not to consult an older version. If you are still not sure about the exact funding rules, please contact your National Agency.
